NEVADA IN WASHINGTON.

The Washington correspondent of the San Francisco Post furnishes that paper some interesting items about Nevada affairs at the National Capital. He says: "Telegraphic information is received of the resignation of United States Marshal Chapp. His successor will be Mr. Augustus Ash. The Postmaster-General is in receipt of information that Postmaster Winnie, of Carson, is a defaulter, which has been forwarded to Mr. Woodburn. Until his colleagues, Senators Jones and Sharon, are here, he will not take steps in either case." It has long been known that Senator Chapp had tired of the United States Marshal's office, and for the very best of reasons—the emoluments and perquisites were not sufficient to furnish him a decent living. His successor, C. Ash, is well known all over the State, and especially in Virginia City where he resides. He was formerly a Deputy, when Gen. Lumsden was U. S. Marshal, and is well qualified for the position.

The report about Postmaster Winnie, of Carson, we believe untrue. The charge is a serious one, and being made in such explicit terms, almost staggers belief. We are inclined to the opinion, however, that the slander has been put in circulation by some secret enemy of Mr. Winnie, and we are confident a full investigation of the affairs of his office will relieve him from all suspicion. We hope so, at any rate.

THE OREGON RAILROADS.

It is rumored that the movement to transfer the Oregon railroad system to the German bondholders is preparatory to a transfer by the latter to the Central Pacific Railroad Company. The Oregon company was delinquent in its payments of interest several years ago, and an arrangement was made whereby the bondholders took the net receipts and were promised by Ben Holladay the debt it below 2 1/2 per cent. Holladay failed to make good the deficit, and it said the roads are now made over to the bondholders amicably, and will be merged into the Central Pacific system, conditional upon a connection by rail being made between this State and Oregon.

A BIG DEBT.

This country is running in debt at a frightful rate. Not only every State, but also nearly every county, city, town and village in every State seems to be rushing headlong into bankruptcy. The total amount of the State, county and municipal debts has reached the enormous sum of one billion three hundred and thirty one million nine hundred and seventy thousand five hundred and seventeen dollars, (\$1,331,870,517). That is over thirty dollars a piece for the entire population of the country. The increase of these debts for the last five years has averaged a hundred millions of dollars a year. Of course the people get the benefit of but a small proportion of these vast sums which it is pretended are spent for them. Dishonest officials steal the greater part of the money, and honest people will ultimately have to pay the indebtedness.

CONSOLIDATION OF GOLD HILL MINES.

The consolidation of the cluster of small mines lying between the Alpha and Yellow Jacket is under way. They are being consolidated and subdivided, with the addition of a portion of the Yellow Jacket, into three mines of 100,000 shares each. Within this space, which is only 635 feet, there are nine different mines, hardly any two under the same management. The arrangements for the union of these properties are nearly consummated.

NEVADA BANK.—The Virginia City branch of the Nevada Bank of San Francisco will be open next Monday, January 10, in the building formerly occupied by D. Driscoll & Co., corner of C and Taylor street.

THE CHINESE QUESTION.

We have received a copy of the following joint resolutions, introduced in the California Legislature, by Senator Rauch, relating to the Chinese question. It is the only manner we know of for the people of this Coast to call public attention to the importance of a subject of such grave importance:

Whereas, It is the duty of the General Government to protect the welfare of its citizens by the enactment of wise laws, and to advance their material interests by friendly relations and commerce with foreign nations, by conceding to their subjects such rights as they allow our citizens to enjoy in their territories; and

Whereas, Our present treaty with China grants to her subjects privileges for which in return we receive no corresponding advantages, but which brings to our shores large numbers of her people, many of whom come among us to pursue an immoral vocation, which has made certain quarters of our towns and cities localities where human degradation is seen in its most abhorrent forms; and

Whereas, The laboring element that is brought among us from China by organized companies of capitalists is not of a desirable character as residents, because, owing to the low standard of living on which it can subsist, it deprives our own working people of employment in industries which they have learned only by a long apprenticeship; and

Whereas, Pauper wages for our working classes, who have wives and children depending on them for support, result from the maintenance of the treaty with China, which largely contributes to fill our poor houses and hospitals with unwilling inmates as the only shelter they can obtain from poverty and sickness caused by loss of work; and

Whereas, It is against public policy that under any present pretext whatever encouragement should be given by treaty stipulations, or otherwise, to the immigration of a servile laboring element among us, therefore, be it

Resolved by the Senate, the Assembly concurring, That our Senators be instructed, and our Representatives requested, to use their influence to have articles five and six of our treaty with China modified, so as to discourage the further immigration of Chinese to our shores, by appropriate action on the part of the Federal Government.

Resolved, That His Excellency, the Governor, be requested to forward a copy of the foregoing preamble and resolutions to our Senators and Representatives in Congress at as early a day as possible.

There is no doubt about the adoption of the resolutions. And when the question comes up in Congress, we believe that Nevada's representatives will be found hand in hand with the California members working to remedy the evil of which the people of this State justly complain.

TWO PASSENGER TRAINS A DAY.

There is some talk that the great overland railway will have to double its passenger facilities to meet the requirements of the traveling public the coming season. The Laramie Sentinel says the Union Pacific Railroad Company has for years been looking forward to the time when the travel over this route would necessitate the running of two express trains each day, but now the occasion seems near at hand and preparations are already being made. It is believed that the average Pacific coasters will participate in the Centennial celebration at Philadelphia, and as they are noted for their traveling proclivities as well as a habit of doing whatever they determine upon, it is pretty safe to say that there will be a grand "stampede" eastward next season, commencing as soon as the first of June and possibly a few weeks earlier. In addition to this, there will be quite a delegation from China, Japan, Australia, the Sandwich Islands and other foreign countries, all desirous of seeing the greatest international exhibition that the world has known.

The preparations that we refer to, continues our Laramie cotemporary, are the increase of passenger locomotives and the refitting up of old passenger coaches with Millard platforms, air brakes, etc., so that they may be used with regular express trains.

THE IOWA SENATORSHIP.—The contest for the Iowa Senatorship waxes warm. Belknap is in the field arranging reports and drilling his men. Harlan stays closely in his rooms, but his friends claim that when a member is taken in there he comes out a Harlan man. The election of Belknap would be best for the country. Harlan has been Senator once, been tried and found wanting.

Democracy Rampant.

Time makes all things even. A few years ago civil war raged in our land, and our soldiers fought, their country might not be dismembered. They fought like brave men, long and well, and many returned maimed and crippled for life. Their antagonists were rebels, striving to overthrow the government under which we all had been, for many years, happy and prosperous. The result is known to all. Treason was foiled and the Republic was saved by the gallant conduct of the Union soldiers, who, at one time, little thought that the same rebels who had maimed and crippled them would be elected to Congress and would ostracize and proscribe the very men who fought against them in order that our glorious nation should not perish. Is this just and right? The answer can only be in the negative. Was it for such treatment as this that the blood of loyal soldiers was spilt so freely on many a battle field? Not satisfied yet, they propose to change the Revised Statutes of the United States with a view of pensioning the men who strove to destroy the Union. Had any one predicted, during the war, such a state of affairs he would have been thought insane. What means Democracy now? It means a regenerated Republic under ex-Confederate influences. The organization of the House of Representatives of the Forty-fourth Congress affords sufficient evidence to prove that our assertion is correct. Loyalty, truth and true; one armed and one legged soldiers who had shed their blood in the defense of their country—were forced to take back seats, while the rebel element, white washed for the occasion, pressed forward to receive at the hands of a nation they tried to destroy the gifts of official patronage. O woe for the day that saw tried Union men, who had faced without flinching the rebel guns on many a hard fought field, dismissed from the House of Representatives to make room for the men who fought to uphold treason and disunion. The American people will not quietly submit to a wrong so glaring—an injustice so unpardonable. We are not so absorbed in money-getting as to quietly permit such an outrage. We will have an election next November that will prove that time makes all things even.—Alameda Gazette.

MINING NOTES.—An assessment has been levied on the Mint of twenty cents per share, delinquent February 8th.

Application has been made to the Board to put the stock of the Edinburg Company, of Devil's Gate District, on the list. It will be done early next week.

The annual meeting of the Knickerbocker Company is called for the 21st of January.

Those who predicted lessened dividends from the Con. Virginia on account of the interruption by fire, have thus far been disappointed. It is true that the production for the past three months has not been as large as previously, but there was a handsome surplus to draw upon to keep up the dividends. In the course of another month, the billion yield will probably be up to the old average. The annual meeting will be next Thursday.

The present rise is but the natural consequence of the favorable appearance of the mines and flattering developments made in a number of them. Bulcher has already recommenced to pay dividends, while it is promised that Ophir and California also will soon be paying their silver into the laps of stockholders.

We note several of the claims which have not been before the public much lately, are attracting some attention. The Adams Hill and Judson commanding advancing figures. In the former, which adjoins the Richmond on the north, some promising developments have been made lately, and which promise to make it one of the most valuable properties in Eastern Nevada, as greater depth is attained.

The Empire Mining Company of Idaho have levied an assessment of 25c per share amounting to \$6,250, delinquent February 10th. This is the twelfth assessment, and the total is over \$300,000.

The report of Dr. Linderman, Director of the Mint, as to the establishment of a Branch Mint at some point in the Mississippi Valley, recommends Indianapolis as the location, for the reason that in that city there are Government buildings no longer required for other purposes, which can be utilized without the delay or expense attendant on the construction of a new edifice.

J. Q. C. LAMAR has been nominated for United States Senate by the Democratic caucus of the Mississippi Legislature.

Opening the Campaign.

The campaign of 1876 was opened by the Republicans of New Hampshire in State Convention at Concord on January 5th. The synopsis as telegraphed, says the San Francisco Bulletin, indicates a pretty good National platform. They favor a resumption of specie payments, a revenue tariff with incidental protection, kind and just treatment to the South and full rights of citizenship to the colored race. The Convention also declares that the present Administration "meets with our highest approbation and commands our undivided support," but is unalterably opposed to a third term. It pronounces in favor of the President's proposed amendment in regard to public schools, and condemns the National House of Representatives for removing maimed Union soldiers from places of employment. In the latter matter the House has given the Republicans some good campaign material which they will undoubtedly use. We do not remember having seen a list of removals of maimed Union soldiers from places within the gift of the House, but without doubt some have been made. The party which fills the offices is known to be friendly to the soldiers, and its neglect to appoint them to office will be attributed to any cause but that of indifference. But the Democrats, not being the special champions of the soldier, must be very careful what they do. They have already made one blunder which will figure conspicuously in all opposition platforms.

AMNESTY.—There is a prospect for a lively debate in the House of Representatives to-morrow. Blaine is up to one of his smart tricks, and will be apt to make it warm for the Democrats. We judge from the annexed proceedings of a day or two since:

Mr. Blaine asked when Mr. Randall proposed to call up his amnesty oath.

Mr. Randall replied, on Monday, Mr. Blaine asked to have read and printed the substitute for the same. This substitute grants amnesty to all except Jeff Davis, the late President of the Southern Confederacy, upon their appearing before the proper Court and taking what is known as the modified oath.

After much discussion as to Mr. Blaine's right to offer an amendment, the Speaker ruled it would be in order.

Blaine evidently wants the Democrats to defeat his substitute which will be some more political capital against that party.

MANY mines are now beginning to yield ore that have never before been productive, companies that for a time have been delving in barren rock are again finding ore. The Belcher company have been able to resume the payment of dividends; at no distant day the Ophir will pay dividends; and dividends may be expected from several other mines. In April the drift from the C and C shaft will tap the 1600-foot level of the bonanza mines. When this shall have been done the whole of the compartments of the Consolidated shaft and the whole of the power of the works can be devoted to hoisting of ore from the two mines—Consolidated and California. The huge mill of the former company will be rebuilt and a second large mill will be put up by the latter at the C and C shaft. Then indeed will the bonanza begin to bleed.

Dealers in stocks are already beginning to look forward to this time. All feel that when the bonanza is tapped from the C and C shaft there will be a grand movement in stocks, and as this time is not far distant we already have a ripple from the coming breeze. Stocks are beginning to "look up" and the reason of this is that mining men are beginning to look forward to the time when will be done and seen some of the things we have spoken of above.—Enterprise.

A HORSE WITH A SILVER THROAT.—The Cincinnati Commercial has this account of a horse with a silver throat: "He was a kind, gentle, hard working beast, belonging to the Cincinnati Omnibus Company, but was 'wind broken,' and on that account had grown almost useless. It was a pity and a loss as well, to turn him out to die—he wouldn't sell—so it was determined by Myers, the veterinary surgeon, to try an experiment, an expedient—in short, a 'kill-or-cure' remedy. So two months ago he made an incision in the animal's throat and inserted a silver tube in the windpipe to facilitate breathing, leaving a sort of artificial nostril at the point of insertion. The device worked like a charm, the terrible wheezing has ceased, the incision has healed up beautifully, and the horse is doing his full day's work and eats his full allowance. The silver throat can be removed and replaced at will for cleansing, but it is so arranged as not to get out of place or cause any inconvenience to the horse."

The regular monthly dividend of \$10 per share has been declared by the Trustees of the Consolidated Virginia.

Montgomery Queen Threatened for Insulting an Actor's Wife.

The New York Sun of December 31st has the following:

Edward Murray and his wife, under the stage name of Miss Alice Ross, have been singing Liberatorian duets in the new Park Theater, Brooklyn, with considerable success. Montgomery Queen, who used to be a Brooklyn livery stable keeper, afterward superintendent of the Second Avenue, New York, Horse Car Company and proprietor of a circus, sat in a front seat with a friend on Wednesday night and was smitten by Mrs. Murray. He wrote an epistle to her asking her to meet him after the performance, and Mrs. Murray promptly handed it to her husband. Mr. Murray and his brother sought Queen and his friend after the entertainment was over, and asked them to drink in an adjoining saloon. In the saloon Murray handed Queen the note, and asked him what he meant by insulting his wife. Queen explained that he did not know that Alice Ross was Murray's wife, but Murray would take no apology, and he pitched into Queen, while Murray's brother pitched into Queen's friend. Both of the visitors were badly pummed, and they hastily ran to their carriage and were driven to New York in a hurry.

CREDITORS OF DUNCAN, SHERMAN & Co.—The creditors of Duncan, Sherman & Co., in their investigations, have discovered that by the will of Cyrus Butler, who died at Providence, R. I., in 1849, William Butler Duncan will receive within a few years over half a million dollars. By the terms of the will, on the death of Mr. Duncan's mother, \$500,000 is to be divided among her three children, and on the expiration of the life interest of certain legatees real estate now valued at \$2,000,000, will also revert to them. It is said that several of the creditors will oppose the granting of a discharge in bankruptcy to Mr. Duncan. It is understood that the first meeting of the creditors will be held soon.

ONE DOLLAR a case is a physician's fee in Sioux, payment being contingent on the patient's recovery, so that as soon as he becomes dangerous only ill the doctor stays away. In this manner thousands of people are cured annually. The following is the popular cure for fever: "Take fragments of the horn of the rhinoceros, the tooth of an elephant, tiger, bear and crocodile; add to these the flesh of a vulture, a crow and a goose, a morsel of the horn of a bison and a stag and a little sandal wood; pound all up on a moistened stone; administer half to the invalid and rub his body with the other moiety."

Mrs. Hannah Stover, of Bowdoinham, Maine, has a right to be regarded as the heroine of the centennial year. She was born on the Fourth of July, 1776, at nearly the same hour when the great bell was ringing out the news of the Declaration from the old hall in Philadelphia. She is in good health and hopes to celebrate the hundredth anniversary of the nation's birthday in July next.

THE WAY TO GET EVEN.—There is only one way to get square with the Atlantic cable extortion, and that is to use the fewest possible words and the longest ones you can think of. Don't say "I will come," "Father is sick," "your draft is accepted," or use any of those expressions. Say "expeditionally I circumnavigate," "father plenipotentiarily degenerates," or some little simple thing of that nature, and then you'll get your money's worth, even at seventy-five cents a word.

THOMAS PHILIP BONAPARTE, who has just announced himself a candidate for the French Assembly, from Corsica, is a sort of "black sheep" in the Bonaparte family. He is well educated, but of rough, rowdy and revolutionary instincts. He and the late Emperor were not friends, and Napoleon III. always kept Pierre in the background, from motives of policy.

The reign of false hair is over, and it is said that Parisians are already arranging their own locks, either in plaits or twisted curls around the head, or in artistic curls at the back of the neck.

At the Carson Mint they have already begun coining dimes with the date of 1876 upon them.

NEW TO-DAY.
Proposals for the Redemption of Masonic Hall Bonds.
